- Sourcetree
- Adobe Photoshop & Illustrator

## EDUCATION

### Bachelor of Science : Information Technology

Montessori Professional College of Asia  
2012 - 2016

## WORK EXPERIENCE

### Software Developer at Coreware Technologies Inc.

April 2022 - Present

- Translated designs and wireframes into high-quality code using HTML, CSS, JQuery, JavaScript, Kendo UI, and PHP (Yii Framework) based on Business Requirements Specifications.
- Developed queries and stored procedures in MySQL to meet client, QA, and co-developer data requirements.
- Built front-end applications using React.js and created APIs and back-end functionality using PHP and Laravel.
- Resolved bugs, optimized performance, and improved existing systems, including the Core Fusion Web Portal.
- Collaborated with the engineering team to design and implement new features.
- Led QA processes, supervising both internal and external teams in alpha and beta testing phases.
- Analyzed user feedback to recommend and implement improvements to software products.
- Provided training to users on new systems, ensuring efficiency during System Integration Testing (SIT) and User Acceptance Testing (UAT).
- Managed version control and collaboration through GitHub, ensuring smooth application versioning and streamlined team coordination.

### Technical Support Engineer at Coreware Technologies Inc

March 2017 - April 2022

- Provided third level onsite support for BancNet's Outsourcing banks software-related issues and troubleshooting as well as ATM Transaction issues.
- Worked closely with development teams to identify and resolve complex technical problems.
- Conducted training sessions and created documentation for clients to improve their understanding and usage of the software.
